## Final Wax Protectant

### DESCRIPTION:

Mighty VS7 Final Wax Protectant is a silicone fortified easy on/easy off, non-abrasive, wax-free, durable type finish. Final Wax contains detergent resistant, amino functional, cross-linking silicone resins to enhance the gloss and color depth of the painted surface. Offers a durable virtually dust-free coating that lasts up to 12 months.

### FEATURES:

- Excellent Gloss
- VOC/OTC Compliant
- Detergent Resistant
- Easy Application

### DIRECTIONS:

Shake well before use. Work on a clean cool surface. Do not use in direct sunlight.

**FOR USE WITH DA OR RO POLISHER:** Apply Final Wax directly to the pad. Set polisher to speed setting 2. Working a panel at a time, over the entire vehicle, work product into the painted surface with three or four passes using moderate pressure.

Continue to work product with two or three more passes at light pressure. Remove residue with a clean microfiber cloth. For a maximum glamorous finish, repeat process twice a year.

**FOR USE WITH ROTARY POLISHER:** Apply Final Wax directly to the painted surface. Use the pad to smooth the product over the area to be corrected one panel at a time. Set polisher to 1000 rpms and keep pad as flat as possible on surface, working not more than one panel at a time, over the entire vehicle. With each pass, work Final Wax into surface. Remove residue with a microfiber cloth. Repeat process as needed to achieve desired results.

**Application Tips:** Use care and keep pads, microfibers and surfaces clean throughout the process.

**AVAILABLE SIZE(S):**  
(6) 16oz DL6006  
(4) 1 gal DL6006-1
