

Mighty**VS7**® Product

Synthetic 2-Step Transmission Service

SB100**PACKAGE** 2 - 12 ounce bottles per kit | 6 kits per case

Unparalleled Protection in Two Easy Steps!

Mighty Synthetic Automatic Transmission Clean and Protect Kit is a two-part system. Synthetic Automatic Transmission Clean (Step 1) releases deposits, corrosion, varnish, and other harmful contaminants. It cleans the transmission with a unique polar action that suspends and removes unwanted contaminants with the used ATF, preparing the transmission for new fluid. It contains NO alcohol, mineral spirits or harsh solvents that could damage an automatic transmission. This product is the only one of its kind that can be utilized with or without exchange equipment.

Synthetic Automatic Transmission Fluid Protectant (Step 2) is a uniquely blended synthetic product formulated for use in ALL automatic transmissions. This product incorporates a high-quality synthetic base stock containing Synthetic Esters which reduces heat, wear, and extends transmission life. This product blends with all domestic and worldwide OEM ATF's.

Product Benefits

- + Reduces Heat and Wear Improving Fluid Stability While Addressing Fluid Oxidation
- + Ultimately Extending Fluid Life, and Increasing Transmission Performance
- + Enhances Shift Quality and Durability
- + Prevents and Instantly Eliminates Torque Converter Lock Up Shudder
- + Protects and Coats Gears and Pumps
